Memo for any day:

## **"Don't be out of stock on Philip Morris brands."**

Philip Morris brands hold their old friends and make new ones every day. Last year they gained more sales than the rest of the industry combined.

If those loyal smokers don't see Philip Morris brands in your store, they'll find them somewhere else.

Check your Philip Morris order often. Remember, today is your only chance to make today's sales.

**5-Year Report:** Philip Morris is the only company with gains in both unit sales and market share for each of the past five years.
